

## Our Services

### Business Platforms and Solutions for GP Surgeries

The Surgery Network is dedicated to helping GP surgeries improve their business performance. Using our unique business platform and expert team, we deliver solutions that achieve cost savings, increased revenue and efficiency improvements.

## Our Services

We provide our members with a unique business platform that features:

### *Purchase Management*

We negotiate with suppliers to ensure best prices on drugs and consumables (clinical and non-clinical). All members pay the same low prices all the time, saving 20%-40% on the cost of consumables.

*Centralised ordering frees up clinical time.* We integrate supplier catalogues into a single portal, with stock management tools that simplify the ordering process. Ordering takes less time and can be handled by the most junior person in the practice.

*Prescribing Drugs (PPA) payments tools* built into the platform to ensuring you maximise the income you are entitled to. Our members typically achieve PPA income that is 15%-25% higher.

*Powerful management information and analysis tools* provide a strategic overview and enables process improvements, which is particularly useful when managing across multiple sites.

*Expert support team* to help source difficult-to-find items and handle any supplier issues.

"As a busy practice manager, the service enables me to manage the practice costs effectively. I know the prices will be the most competitive, but without the hassle of searching myself."

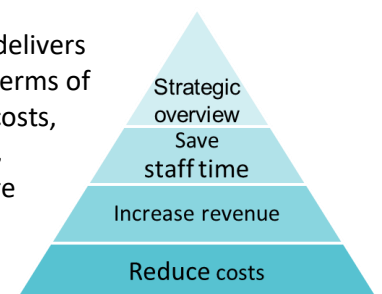

- Practice Manager, Reading

## About Us

We are a highly experienced team of health sector professionals. We truly understand the needs and challenges of primary care and deliver outstanding service to our 250+ members.

## Benefits

Our business platform delivers immediate benefits in terms of reduced consumables costs, increased PPA revenue, reduced workload, more management control and a less stressful working environment for your team.

"Using Surgery Network has enabled us to simplify our ordering process and free up time for clinical staff. The support and advice provided has also been excellent."

- Practice Manager, Portishead

## A service that pays for itself

We charge a fixed monthly fee, dependent on practice size. **Our costs more than covered by the savings made on purchase items alone.**

"The platform pays for itself as the cost savings far exceed the membership fee"  
- Practice Manager, Bristol

## Request a Free Financial Review

We will conduct a detailed financial review that compares your current purchasing costs with the prices possible using our platform.

Contact us to find out more.
